**Re: Jacob Blake v. Office Rusten T. Sheskey
Case No. 21-cv-00381**

Dear Judge Stadtmueller:

My firm represents Kenosha County District Attorney Michael Graveley. In the Court's January 12, 2022 order, the Court required all of the Movants' to submit a short letter explaining whether the Wisconsin Department of Justice – Division of Criminal Investigations (WDOJ DCI) provided additional secondary investigation materials to DA Graveley and/or the Kenosha Police Department.

The materials the Court attached as Exhibit A to its January 12th order were exhaustive of all materials received by DA Graveley at the time the motion to quash was filed. These were also all of the materials DA Graveley received that were within the 20-6420 WDOJ DCI investigative file.

It is DA Graveley's understanding that the WDOJ DCI opened a separate investigative file for the secondary investigation. DA Graveley has received materials from this separate investigative file. DA Graveley received these materials after Plaintiff's subpoena was received and after the motion to quash was filed.

Sincerely,
AHMAD & GUERARD, LLP
